Mediterranean network to Assess and upgrade the Monitoring and forecasting Activity in the region

MAMA The First MedGOOS Project

Mediterranean network to Assess and upgrade the Monitoring and forecasting Activity in the region

MAMA The First MedGOOS Project

The Mediterranean network to Assess and upgrade Monitoring and forecasting Activity in the region (**MAMA**), a 3-year thematic project funded by the Vth Framework Programme of the European Union and involving for the first time a consortium from all the Mediterranean countries, is establishing the multi-national network that will prepare the institutional linkages and regional platform for an integrated and sustained ocean and coastal observing and forecasting system in the region. The project takes advantage of the scientific and technological base achieved in Europe, the enlargement process in the European Union, and the Mediterranean policy of the Union, ...
